

On Tuesday May 2 2023 four French speedcubers came to visit us at Cervelli Ribelli foundation: Juliette, Nicolas, Quentin and Enzo.

Juliette was originally sponsored by QiYi but later she [joined The Cubicle](#) team and became a real and truly branded [Rubik's ambassador](#). She owns the world fastest single record among women(4.44). This was for a long time the European record (CR). She won several awards including the first place in the women's category of the [Red Bull Rubik's Cube World Cup in November 2022](#). She was also first in Megaminx at the French Championships in the last weekend.

Nicolas, Nico for his friends, specialized in solving with feet, was in the first place at the French Championships in Lille 2017, with a time of 32.71. He was among [the first to 20 in the world](#). The category unfortunately was cancelled at the end of 2019.

This isn't Nico's only skill, he is in fact specialized also in the optimized resolution of moves (FM) and also with one hand(OH).

In the first one, Nico equaled the National Record (NR) during the last Championships single of 20 moves(photo 1) and obtained the first place.

Regarding instead OH he was the winner during an exciting battle with his friend Juliette (photo 2) realizing even his personal record (PR).

He was also the winner of the Coupe de France. He's sponsored by [the shop plus2cubes](#).

Quentin ed Enzo are sponsored [by the shop atoutcubes](#) and are respectively the third place in the mother category of the classic cube 3x3 and the second, if it may seem insignificant, is only under ten seconds in solving the classic cube.
